MODUTECH MARINE

MODUTECH

COMMERCIAL CRAFT

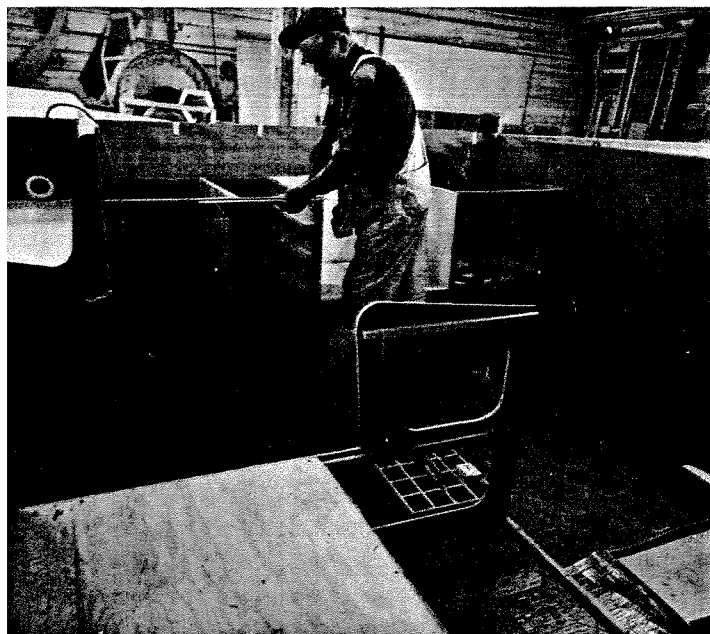

There are good reasons why Modutech Marine has become one of the busiest builders of fiberglass commercial craft on the West Coast. The plant is located in Tacoma, a city famous for its shipbuilding industry, with a wealth of experienced craftsmen. Using the finest of fiberglass techniques, they assure you of the highest quality commercial fishing boats available. Speed, handling and sea-keeping qualities are derived from origins in famous Fairliner pleasure craft. Strength, stability and load capacity in rugged fishing boat tradition insure serviceability and profitability.

Fiberglass has proven to be the best material yet discovered for building commercial fishing vessels. No corrosion. No rot. No painting. It is strong, durable, beautiful, and requires very little maintenance. Its life expectancy is far beyond any other material. Modutech hulls are solidly built of fiberglass by the slow, careful hand lay up method. Four full length fiberglass stringers are integrated in the construction to distribute the weight of fuel tanks, engines and fish hold throughout the entire hull. A unique Norwegian lapstrake bottom provides strength and rigidity, plus superior speed, handling, comfort and safety.

Interiors are the kind you would expect to find in custom-built yachts . . . beautiful vinyl flooring throughout, teak grain laminate on walls and cabinets, high-pressure vinyl laminate on all exposed fiberglass surfaces, color coordinated galley equipment, Formica counter tops, heavy Naugahyde upholstery, vinyl headliners, and enclosed head with optional shower.

Power options are single or twin, gas or diesel. The most modern hydraulic and electrical equipment is available for controls and machinery. A command bridge, complete with helmsman seat is standard. Every boat is thoroughly and completely water tested, insuring that your Modutech boat is in perfect running order.

Pleasure boats built in this same Modutech tradition are also available in lengths from 26' to 50', in various stages of completion, from bare hull to completed boat.

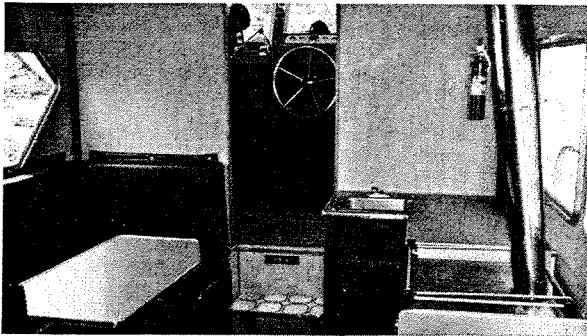

MODUTECH MARINE, INC.

401 Alexander Ave./Tacoma, WA 98421/206-272-9319

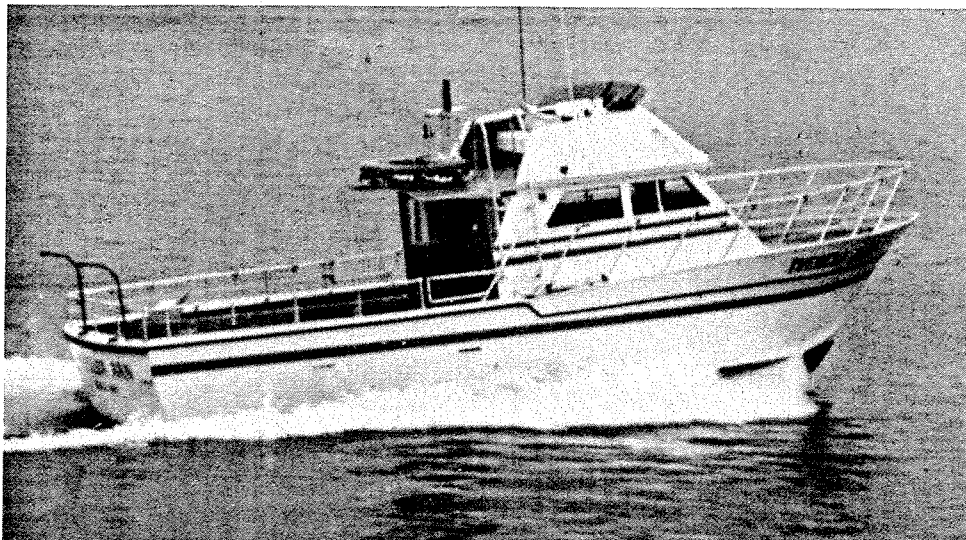

40' CHARTER

A blue water boat with foul-weather protection in spacious cabin and enclosed bridge, yet plenty of deck space with full height rails for enjoyable fishing for up to 25 fishermen. Interior arrangements can also be provided for overnight and cruising accommodations.

36' CHARTER

She means business . . . and she looks it. The Modutech 36 will take up to 15 guests to where the fish are . . . safely, swiftly and comfortably. The seaworthiness and accommodations will help bring them back . . . time after time. Maintenance-free materials throughout keeping her looking shipshape.
